

Sculling Courses Saar/Ratzeburg(G) 2012

...start single sculling, or improve your technique and row relaxed!

These international sculling courses are meant for those who are member of a rowing club and find too little support to improve their technique or to make a fine start in the single scull. The program was extended in 2011. Besides the well-known single scull technique courses in North German Ratzeburg, courses were also offered on the beautiful situated river Saar, located in the west of Germany, close to the border with Luxembourg. With succes, all courses in 2011 were sold out within two months!

There is a special course for single scull beginners, where they get a well structured program in order to make a fine and relaxed start in the single scull. Advanced scullers can choose between a long-weekend, four or six day course (only in Ratzeburg) to (again) improve their sculling technique. On both locations, several rowing sessions, video-recordings, analyses and individual rowing instruction are scheduled.

The full board stay, at both locations, is situated directly at the rowing water. Both Ratzeburg and Saar, are surrounded by beautiful nature and have excellent walk and bike possibilities.

In brief: inspiring days in the single scull in a stunning environment, combined with a nice holiday.
